(Code three, room 836)
(Code three, room 836)
I don't sleep and I won't
Get me down low, keep me down low
Get me down low, keep me down low

A demon sigh, she opens wide
(? Lithium, Adderall,? without a doubt)
I show teeth, my dolls won't play with me
Get me down low, keep me down low
Get me down low, keep me down low

A girl in a cage, (?)
If I miss a pill, she says--
Kill, kill

Keep me down low, head goes on the shoulder
I'll try staying alive until I'm older
Spin the wheel of a chemical revolver
I put it all on black

Keep me down low, doctor said so
There's things in the past that I never let go
But I'm just a girl and I wanna go home
(Go home)

(Wanna lose weight? We'll keep you)
I watch TV, should I drink
Bleach?

Get me down low, keep me down low
Get me down low, keep me down low
Give me a shot, kickstart my heart
(? Lithium, Adderall,? without a doubt)
A girl in a cage,?
If I miss a pill, she says
Kill

Keep me down low, head goes on the shoulder
I'll try staying alive until I'm older

Spin the wheel of a chemical revolver
I put it all on black

Keep me down low, doctor said so
There's things in the past that I never let go
But I'm just a girl and I wanna go home

Keep me down low, head goes on the shoulder
I'll try staying alive until I'm older
Spin the wheel of a chemical revolver
I put it all on black

Keep me down low, doctor said so
There's things in the past that I never let go
But I'm just a girl and I wanna go home

(Interlude)

Another knock on the wall
Keep walking down the hall
Another knock on the wall
Keep walking down the hall
