If You Don't Know

The Explosion

Our eyes have seen the glory of the rise before the fall
Times get tight no end in sight we've run into these walls
Sit back and have a laugh let's talk about the things we've done
And what we never have look how far we've comeThis is what we say
This is what we are
This is what we areAnd if you don't know you weren't meant to
If you can't see don't even try to understand
If you don't know, if you don't know
If you don't know you weren't meant toFortunate we are but fortunes come and go
Buy yourself some time the years still take their toll
Even when you think you got it sussed sometimes all that you can trust
Is the sun will rise tomorrow and that's alright with usAnd if you don't know you weren't meant to
If you can't see don't even try to understand
If you don't know, if you don't know
If you don't know you weren't meant toAnd if you don't know you weren't meant to
If you can't see don't even try to understand
If you don't know, if you don't know
If you don't know you weren't meant to
