

# Bonus Track

## Audience of One

Make me want you to hold  
All the white parts of  
What I know  
Only just as you let go  
All the promise of a real man  
Take it; take the picture of what you love  
I want to mess with what you love  
Make me want you too  
All the way from what I know  
Only just as you let go  
All the promise of a real man  
All the promise of a real man  
Make me want you to hold  
All the way from what I know  
Only just as you let go  
Only just as you let go  
Only just as you let go  
Only just as you let go  
Take it; take the picture of what you love  
Only just as you let go  
Only just as you let go  
I know, only just as you let go  
You let me say
