

# Deadlocked

## Concepts

Take your another step into the pit  
Your meeting death talking  
Game set match bitch fingers on the casket  
What!?

With the blade of woe the sensatable  
Cuts down the traitor when he feels  
The anger blade sharp as razor  
He'll remember all the sins  
And the shit he's gotta pay for

Breath out  
The disease inside eats away at the man you plan to be  
Not much has changed with the way you  
Play these games with those you love

I try to see things through your eyes  
So i can understand who you are and where i stand

For what it's worth  
I want to know you better  
You've got me feeling like  
It wasn't worth the wait, i should've told you  
For the sake of saving time

Crystalline eyes where the real truth hides  
False figures for the blind with a bloody compromise  
(Deceit in that you speak)  
(For all the people you meet)  
With all the words that you have spoken  
Shot around like a brother lie  
So sharp so dangerous  
Lying to the world is just a game to us  
I won't be fooled cause i've learned along the way

You gotta go in on your own  
You gotta trust in what you know  
You gotta somehow find some way to solo learn all the ropes  
All that you hide

All of your senseless pride

I see the blood your eyes tonight

For what it's worth

I want to know you better

You've got me feeling like

It wasn't worth the wait, i should've told you

For the sake of saving time

Don't think you're dead when you're just hopeless

I see the pain in your eyes

And i know we've been addicted

My veins are raging

We're not dead yet and we can be saved

But we're chased by the labels that we claim

Labeled deciever

Deciever...Deciever...Deciever!

The bones of those they betrayed

Have now paved the way

Brace yourself i'm afraid we've been misled

Misguided by idle hands

Where are you now?

Cause i've finally figured out

That this road that you lead me down goes

To a place i knew i'd never get out

Alive...Alive... I'm burning from the inside
