I am the War

Sodom

I am the warNo emotions to take your life
Confrontation with the dead inside
Wasted thousand centuries
Now fighting for the endless peaceAdrenaline control
Forever fixed my soul
Curse by my side
The judgment in disguiseI am the war
Never disarmed
I am the war
Within my heartI am the war
Supreme command
I am the war
Living on the edge
I am the warI smell the rats of mendacity
Napalm for your nudity
I practice what I preach, my god
Dehydration of your bloodAdrenaline control
Forever fixed my soul
Curse by my side
Judgment in disguiseI am the war
Never disarmed
I am the war
Within my heartI am the war
Supreme command
I am the war
Living on the edge
I am the warI cannot build but I can destroy
Insanity concealed
All the structures have been lost
Totally deceasedI am the war
Never disarmed
I am the war
Within my heartI am the war
Supreme command
I am the war
Living on the edgeInfected by our unnatural aggression
Driven by abnormal death selection
No antibodies that fixed my mind
No teardrop dims my savage eyesAdrenaline control

Forever fixed my soul
Curse by my side
Judgment in disguiseI am the war
Never disarmed
I am the war
Within my heartI am the war
Supreme command
I am the war
Living on the edgeI am the war
I am the war
