

# I am the War

## Sodom

I am the war  
No emotions to take your life  
Confrontation with the dead inside  
Wasted thousand centuries  
Now fighting for the endless peace  
Adrenaline control  
Forever fixed my soul  
Curse by my side  
The judgment in disguise  
I am the war  
Never disarmed  
I am the war  
Within my heart  
I am the war  
Supreme command  
I am the war  
Living on the edge  
I am the war  
I smell the rats of mendacity  
Napalm for your nudity  
I practice what I preach, my god  
Dehydration of your blood  
Adrenaline control  
Forever fixed my soul  
Curse by my side  
Judgment in disguise  
I am the war  
Never disarmed  
I am the war  
Within my heart  
I am the war  
Supreme command  
I am the war  
Living on the edge  
I am the war  
I cannot build but I can destroy  
Insanity concealed  
All the structures have been lost  
Totally deceased  
I am the war  
Never disarmed  
I am the war  
Within my heart  
I am the war  
Supreme command  
I am the war  
Living on the edge  
Infected by our unnatural aggression  
Driven by abnormal death selection  
No antibodies that fixed my mind  
No teardrop dims my savage eyes  
Adrenaline control

Forever fixed my soul  
Curse by my side  
Judgment in disguiseI am the war  
Never disarmed  
I am the war  
Within my heartI am the war  
Supreme command  
I am the war  
Living on the edgeI am the war  
I am the war
