Ice Melts

Matt & Kim

Ceilings falling down
Broken bricks and salty air
Sleeping on the ground
grasses much greener from down here
Ceilings falling down
I hold my hands up high
Ceilings falling down
I gave, I took, I try
Ice melts all around me
water down me, we'll
water down me
we'll never be
Ice melts all around me
together we will
together we will
make it freeze
Hold my hands up high
and shout out all my dumb demands
Feet tap what I say
but it sounds
why you in a stance?
Ceilings falling down
I hold my hands up high
Ceilings falling down
I gave, I took, I try

Ice melts all around me
water down me, we'll
water down me
we'll never be
Ice melts all around me
together we will
together we will
make it freeze
Searching for my left shoe in a pile of only right
Ice melts quickly, don't forget me!
It's bright out there, I'm wearing white.
Ceilings are falling down,
It's time to run and hide.

Ceilings falling down,
I stood and watched inside.
Ice melts all around me
water down me, we'll
water down me
we'll never be
Ice melts all around me
together we will
together we will
make it freeze!
(x2)
