My California

Sam Lightnin' Hopkins

Calling California is there anybody home
Hello California won't you please pick up the phone
I wanna say I love you but I'm a million miles away
And I am thinking of you I miss you and LA

For you and you alone I'll lay my monsters down
And we'll watch the sun come up over California
For you and you alone I'll find my way back home
And I'll love you like the sun loves California
You're my California

I have made you suffer left you waiting in the rain
While I was chasing demons in the deserts of my pain
You know me better than the poison in my veins
So my love remember when God forgets my name

For you and you alone I'll lay my monsters down
And I'll watch the sun come up over California
For you and you alone I'll find my way back home
And I'll love you like the sun loves California
My California

I wanna feel the ocean breeze
Let the waves wash over me
I'll leave my winters in the sand
Hey California, California

For you and you alone I'll lay my monsters down
And we'll watch the sun come up over California
For you and you alone I'll find my way back home
And I'll love you like the sun loves California
California, you're my California

My California, you're my California
