

Warm Winter Night

Asher Monroe

There's noone I'd rather be with
on this winter night.
Sharing this beautiful moment
with you right by my side. Oh baby, you're all that I need in my life
don't carry the world on your shoulders.
Together we'll turn wrong to right
stay with me baby on this warm winter night. Uuuuu, on this warm winter night, uuuuu. We've crossed so many
oceans
to cover the stars above.
Memories most cherished
are all with you my love. Oh baby, you're all that I need in my life
don't carry the world on your shoulders.
Together we'll turn wrong to right
stay with me baby on this warm winter night. Uuuuu, on this warm winter night, uuuuu. Turn the lights down low
let me hear your whisper.
Hear your heart beat slow now you're breathing deeper.
The ... will come everyday in my arms you will stay.
And ooo, even when your feet won't touch the ground
not even the world can hold us down. You and me together
I'll hold on forever. Uuuuu, on this warm winter night.
Uuuuu, on this warm winter night,
I'll hold on to you,
your love pulls me through.
Tonight I'll hold on to you. I can feel you now, your love around
wanna hold you now, keep you safe and sound.
Oooooo, this warm winter night.
