Diamond Girl (feat. Mumzy Stranger)

Adam Saleh

She is a diamond x3

She is a diamond, she doesn't even know

That this guy is playing her with all his dollars
The quicker you open your eyes girl
And you will know, I will give you everything
I will give you what you need

Yeah, he got diamonds and pearls
Money on his mind no love for you girl
Come, any time of the day
I could be your best friend always here to stay
Yeah, doesn't matter what you say
Cause you're stuck in the middle, but I could get you out the game
Uh, he's yapping and chatting and yapping and yapping
And leaving her all alone

Yeah, and I be balling
Take my money and you be calling
All your girls tonight
Go buy some Louis Vuitton
Put your make-up on
Put your dresses on
Put your stillos (stilettos) on
Just turn it on
When I call for you, look pretty for me
What you're looking at here is all you need

She is a diamond, she doesn't even know
That this guy is playing her with all his dollars
The quicker you open your eyes girl
And you will know, I will give you everything
I will give you what you need

She is a diamond, she is a diamond girl
She is a diamond. Diamond, diamond, diamond girl

Yo, he's playing tricks with your mind
Don't be so blind

You need to rewind
You could do better, forever and ever
I will always keep it together
So let me just explain
I'm not about the dollar
I will take away your pain
I know it's hard for you to leave this money and fame
Not on the rich list, I know that you would change

Yeah, and I be balling
Take my money and you be calling
All your girls tonight
Go buy some Louis Vuitton
Put your makeup on
Put your dresses on
Put your stillos (stilettos) on
Just turn it on
When I call for you, you look pretty for me
What you're looking at here is all you need

She is a diamond, she doesn't even know
That this guy is playing her with all his dollars
The quicker you open your eyes girl
And you will know, I will give you everything
I will give you what you need

It's a shame that I didn't see
I had to take what you couldn't see
I gave dollars, but never me
And now it's us just let it be
