Superlove

Booker T. Jones

I want you
All of you
Can we break through
And start a new
I want your superlove
I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
We both know
The way to go

Let's take a chance
It's our last dance
I want your superlove
I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
I want your superlove
I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
