

# Second Solution

## The Living End

Standin' on a street light, tryin' to get away  
Guilty, guilty, I hear what you say  
Countin' down the hours but I haven't got the time  
23rd precinct jumping on the line, on the line And what I wanna know  
Is will I get death row  
Or is there a second solution? What I wanna say  
Is will I die today  
Or will I get second solution? It was never meant to end this way  
One shot violence, I hear what you say  
Standin' on a street light, tryin' to get away  
Guilty, guilty, I hear what you say, what you say And what I wanna know  
Is will I get death row  
Or is there a second solution? What I wanna say  
Is will I die today  
Or will I get second solution? Standin' on a street light, tryin' to get away  
Guilty, guilty, I hear what you say  
Countin' down the hours but I haven't got the time  
23rd precinct jumping on the line, on the line And what I wanna know  
Is will I get death row  
Or is there a second solution? What I wanna say  
Is will I die today  
Or will I get second solution? Second solution  
Second solution  
Second solution
