Cue the Rain

Lea Michele

How many times have I driven this road
All my way home
It's always the same
So many people just stand in the line
They're chasing the lights
But losing their way
And I find myself looking for you
Yeah, I find myself looking for you, looking for you'Cause anyone is on fight for us
We would die for us
Up in flames
Cue the rain
In my heart little scars everywhere that you are
Up in flames
Cue the rainHell lights and till lights they all look the same
We come and we go
It something to chase
Hard to remember what we left behind
But you're hand in mine is hard to erase
And I find myself looking for you
Yeah, I find myself looking for you, looking for you'Cause anyone is on fight for us
We would die for us
Up in flames
Cue the rain
In my heart little scars everywhere that you are
Up in flames
Cue the rainAnd I'll stay, yeah, anything but okay
And I would fade tonight'Cause if anyone is on fight for us
We would die for us
Up in flames
Cue the rain
Cue the rainWhy can't I stay?
I would save it awayAnd I find myself looking for you
Yeah, I find myself looking for you'Cause if anyone is on fight for us
We would die for us
Up in flames
Cue the rain
In my heart little scars everywhere that you are
Up in flames
Cue the rainAnd I'll stay, yeah, anything but okay

And I would fade tonight'Cause if anyone is on fight for us
We would die for us
Up in flames
Cue the rain
