

# Bow and Arrow

## Reuben And The Dark

You're a bow and arrow  
A broken guitar  
While the rain, water washes away who you are  
We go over the mountains and under the stars  
We go over the mountains and under the stars

Won't you hold my hands over my heart?  
I want you to close my eyes when it grows dark  
Oh, we go over the mountains and under the stars  
We go over the mountains and under the stars  
We go over the mountains and under the stars  
We go over the mountains and under the stars

Won't you hold my hands over my heart?  
I want you to close my eyes when it grows dark
