Something You Should KNow

Trevor Page

Something you Should Know Lyrics

Verse 1
So tire, but Im gonna win
yeah, but where do I begin?
you have so many games
Oh, but i donâ€™t want to play
my passion is tragic
my ego is worn
but I just wonâ€™t go
and there is something you should know
you should know

Chorus
If this, if this is what you want
then what, then what you waiting for?
you could lose it forever, it could be now or never
Just something you should know yeah

Verse 2
You are suffocating
and I need to breath
So why you complicating
everything
You try to stop me but I just wonâ€™t Oo
But there is something I think you should know
You should know
you should know

Chorus
If this, if this is what you want
then what, then what you waiting for?
you could lose it forever it could be now or never
Just something you should know
Just something you should know

Bridge
So what are you waiting for?
There is something you should know
I aint got no time to waste so what you waiting for

There is something you should know
I aint got no time to wait so what you waiting for

Chorus
If this, if this is what you want
then what, then what you waiting for?
you could lose it forever it could be now or never
Just something you should know
Just something you should know
