She Changes the Weather

Swim Deep

Seen it all
but I've seen nothing yet
'Cause I forget do I know?
Or do I think I know
It's so real
It's so clearShe takes my time
But I don't mind,
she makes me feel like
like I can see for miles
She changes the weather in my mould
Seems like it's never getting coldIt's ok, it's not obvious
'cause what you say will make my day
rid of consequence
It's so weird
But it's so clearShe takes my time
But I don't mind,
she makes me feel like
like I can see for miles
She changes the weather in my world
Seems like it's never getting cold
