Hooked on Your Love

Carmen Ejogo

Your tender smile gives me happy thoughts of you
You've got so close to my dreams now they have to come
Oh baby nothing to be shy about nothing we have to lie about
Hope loving you don't confuse you
Oh baby baby i don't wanna lose you
And When We touch our heart move in steady pace
Oooh BabayI trying hard not to show the blushing on my face
oh baby you bring out woman in me
what can i say that you can't see
i like the way we carry on
Hope you understand these feeling got me reelingWhat can i do with these feelings
hooked on your love sweet love love X2Your eyes within me justa send me staring me
Im turn down child i have to move around down
over and over you astound me
i take pleasure to have you around me
My loving arms would love to squeeze you
Ooh baby baby take it i don't wanna tease youWhat can i do with these feelings
hooked on your love sweet love loveNothing to be shy about
nothing we have lie about
Hope loving you don't confuse you Hope you understand that this feeling got me reelingWhat can i do with these feelings
hooked on your love sweet love love (plays out until the end)
