Rooms spin like hurricanes
Walls begin to breath
When will this be over
 Like it more
 Then i should
 Its taking over me
When will this be over
 Fighting for you
 Struggling for you
 Waiting for you
What do i do this for
 All for the high
Why do i do this why
 All for the high
I rummage through this disaster
 To find a reward
 Why do i do this why
 All for the high
 Torn in half again
 I still feel the same
My head spins like a hurricane
 I cant see
 Right in front of me
Through the shit inside of me
 When will this be over
 Fighting for you

 Struggling for you
 Waiting for you
What do i do this for
 All for the high
Why do i do this why
 All for the high
I rummage through this disaster
 To find a reward
 Why do i do this why
 All for the high
 My head spins
 Lost control

When will this be over
My eyes roll
Look inside
When will this be over
What do i do this for
All for the high
Why do i do this why
All for the high
I rummage through this disaster
To find a reward
Why do i do this why
All for the high
