

Favourite Undies

Fatcat & Fishface

One, two, three!

When you've got your favourite undies on, the world's a brighter place.

When you got your favourite undies on, the world's a brighter place.

When you got your favourite undies on, you got your favourite undies on, you got your favourite undies on, the world's a brighter place.

Dikadiedie dikadidikadidikadidikadika (etc)

When you got your favourite undies on, the world's a brighter place.

When you got your favourite undies on, the world's a brighter place.

When you got your favourite undies on, you got your favourite undies on, you got your favourite undies on, the world's a brighter placeeeeeesah.
