Pace Is the Trick

Interpol

You can't hold it too tight
These matters of security
You don't have to be wound, so tight
Smoking on the balconyBut it's that sleaze in the park
And women, you have no self-control
The angels remark outside
You were known for insatiable needs
I don't know a thingI've seen love
And I follow the speed of the starlight
I've seen love
And I follow the speed in the star swept night
Yeah, pace is the trickAnd to all the destruction in men
Well, I see you as you take your pride, my lioness
Your defenses seem wise, I cannot press
And attentions are demise, my lioness
Can't you hurt it some, think I heard itI've seen love
And I follow the speed of the starlight
I've seen love
And I follow the speed in the star swept nightAnd now I select you, slow now I let you
See how I stun, see how I stun
Now I select you, slow now I bet you
See how I stun, see how I stunAnd to all the destruction in men
And to all the corruption in my handAnd now I select you, slow now I let you
See how I stun, see how I stun
Now I select you, slow now I bet you
See how I stun, see how I stunNow I select you, slow now I let you
See how I stun, see how I stun
Now I select you, slow now I let you
Ill always follow the speed in the star swept nightYou don't hold a candle
You don't hold a candle
You don't hold a candle
