Formed a Band

Art Brut

Formed a band, we formed a band
Look at us, we formed a band
Formed a band, we formed a band
Look at us, we formed a bandFormed a band, we formed a band
Look at us, we formed a band
Formed a band, we formed a band
Look at us, we formed a bandHoney pie, I don't know when it started
Stop buying your albums from the supermarkets
They only sell records that have charted
And Art Brut, well we've only just startedAnd yes, this is my singing voice
It's not irony and it's not rock 'n roll
We're just talking to the kidsFormed a band, we formed a band
Look at us, we formed a band
Formed a band, we formed a band
Look at us, we formed a bandFormed a band, we formed a band
Look at us, we formed a band
Formed a band, we formed a band
Look at us, we formed a bandWe're gonna be the band that writes the song
That makes Israel and Palestine get alongWe're gonna write a song as universal as Happy Birthday
That makes sure everybody knows, everything is gonna be okay
We're gonna take that song, we're gonna play it
Eight weeks in a row on Top of the PopsFormed a band, we formed a band
Look at us, we formed a band
Formed a band, we formed a band
Look at us, we formed a bandFormed a band, we formed a band
Look at us, we formed a band
Formed a band, we formed a band
Look at us, we formed a bandDye your hair black, never look back
My past is my business
