

# Super Nova Car Solo

## Maxine

Driving through the galaxy on a mission to complete  
find that love with you and me  
Navigation through the stars passing earth the moon and mars  
let your compass be my heart  
I won't let time or space keep me from where you are  
BMW love Super Nova Car  
Theres no place that I can't go cuz your love will charge my soul  
Take me to the outer reach love is my reality I will find your love from here it flows  
Keep it coming baby it's so mellow this ride Dippin through the milky way  
Constellations outer space  
Leaving stardust in my wake  
Traveling twice the speed of light  
Destination here tonight  
I can feel you by my side I won't let time or space keep me from where you are  
BMW love Super Nova Car  
Theres no place that I can't go cuz your love will charge my soul  
Take me to the outer reach love is my reality I will find your love from here it flows  
Keep it coming baby it's so mellow this ride You are the one  
You are the only one love I will find your love from here it flows  
Keep it coming baby it's so mellow this ride
