

# News from the Sun (live bootleg)

## Neon Indian

Don't turn around the way  
Marching in the hit parade  
Oh don't let it get away  
Get away You were blissful in the dive  
Oh while the world took five  
You were counting the days  
Oh you are standing for something Tangled up in the arms of the night  
I just can't wait for the light  
And hear the news from the sun  
News from the sun  
News from the sun  
More afraid to die unknown than to die alone  
Oh you gotta give it up  
You're just young thing  
And your dreams have a restless host  
There's no giving up the ghost  
Stand your post  
It's still caught in the upswing And time pulls at you like a tireless child  
And all you want to do is to stay a while  
Stay a while Tangled up in the arms of the night  
I just can't wait for the light  
And hear the news from the sun  
News from the sun  
News from the sun  
I'm just  
Tangled up in the arms of the night  
I just can't wait for the light  
And hear the news from the sun  
News from the sun  
News from the sun We're all just waiting for something  
Yeah  
Oh just waiting for something  
Something  
Till love touches you, like a hand in the dark Tangled up in the arms of the night  
I just can't wait for the light  
And hear the news from the sun  
News from the sun  
News from the sun I'm just  
Tangled up in the arms of the night

I just can't wait for the light  
And hear the news from the sun yeah  
News from the sun (News from the sun)  
News from the sun (Yeah)
