

Mousetrap Heart

Thirsty Merc

Hot woman go and come back in denim
I could see that she was west end venom
Kind of girl that is chased by desire
Only person that could get me higher
Blood flowing like a tap left running
Little smile i could see she's cunning
White knight oscillating primal
I was lost on a trip so final And it sounds so funny but i spend my money
On a journey that you can depend on
But I know I'd look back and only feel messed
up again
And i was saying Mayday
She gonna blow it all apart
This girl has got a mousetrap heart
I'll say it again
Mayday
What a pretty way to start
This girl has got a mousetrap heart Hot woman say 'you wanna drive, do you?'
Russian eyes - i could taste that voodoo
And we were slippin' into Fahrenheit burning
Hell city but my Earth still turning
Had a moment I could see six flowers
Hallucinating in the jet plane hours
Two lips like rhyming couplets
Dropped a line - caught a fishnet And it sounds so funny but I spend my money
On a journey that you can depend on
And with the gin in my eyes
I could hear the sweet cries
From a temple in the Baha'i sun
With the 20-20 vision of hindsight
I know I'd look back and only feel messed
up again
But she took my moment and owned it
And I was saying Mayday
She gonna blow it all apart
This girl has got a mousetrap heart
I'll say it again
Mayday
What a pretty way to start

This girl has got a mousetrap heart I know what you're about
You've always had it all
Without a shadow of a doubt
Just say the word and make me fall
I see this playing out
So let's just move things forward
Where you take my car, and my money
Can't believe you think that's funny
Sharp shoes damn verging on lethal
Keep em' on babe, we don't need people singin' Mayday
She gonna blow it all apart
This girl has got a mousetrap heart
I'll say it again
Mayday
What a pretty way to start
This girl has got a mousetrap heart
