Relativity

Lemon Demon

I'm falling up. They're falling down.
I'm standing still. They're spinning around.
No matter what I do, they could be undoing.
Is there something brewing?
Doesn't anybody know? Doesn't anybody know?
Doesn't anybody know? Doesn't anybody?
Doesn't anybody know? Doesn't anybody know?
Doesn't anybody know? Doesn't anybody?
Nobody knows, 'cause it's all relative.
Nobody knows, 'cause it's all relative.
The sun is spinning all around us,
but we are spinning all around it.
We see the moon, the stars, the satellites shifting.
What is really drifting?
Doesn't anybody know? Doesn't anybody know?
Doesn't anybody know? Doesn't anybody?
Doesn't anybody know? Doesn't anybody know?
Doesn't anybody know? Doesn't anybody?
Nobody knows, 'cause it's all relative.
Nobody knows, 'cause it's all relative.
He was a German physics genius.
In 1955 he left us.
Did Einstein really die
or did the whole world come to life without him?
Doesn't anybody know? Doesn't anybody know?
Doesn't anybody know? Doesn't anybody know?
Nobody knows. Nobody knows.
Nobody knows, 'cause it's all relative.
Nobody knows, 'cause it's all relative.
