Cuffed

Hurt

Said you want to be this way. When there is no love, you put yourself down
Well if you wanna be this way, there is no love, you put yourself out
But you feel it around. And you?re calling me back with the sound of the feeling aroused. You will get...
Said you wanna be this way. There is no love, You put yourself out.
I didn?t wanna be this way. You hook yourself up. I?ll show you just how.
As you feel it around
It comes from the back of your mouth
You're the steel from the chains
Two ropes around your waist
What do you want me to say?
You give yourself away (as you feel it around)
You give yourself away (as you feel it around)
You give yourself away (as you feel it around)
it astounds me.
Look around me. All you?ll see is pain

And broke machines and hopes and your dreams
Where there?s pain in me
There?s this place, one place
That?s calling me a back to the house
Where I don?t wanna live at all
But I feel them around
And they?re calling me back with the sound.
So if you wanna be this way
There is no love
You're just cuffed
You give yourself away. So I?ll see you around
You give yourself away. Just call and go back to the house
You give yourself away. You confound me, just take a look around please,
and go back home where you're safe
You give yourself away. (x3)
