Atb

My feet just need some action, and I am out of patience  
May I ask you to fix it, I'll come a little closer  
Somehow you remind me, as I watch you from the distance  
Your eyes are the purest You are gold My feet just need some action, and I am out of patience  
May I ask you to fix it, I'll come a little closer  
Somehow you remind me, as I watch you from the distance  
Your eyes are the purest You are gold My feet just need some action, and I am out of patience  
May I ask you to fix it, I'll come a little closer  
Somehow you remind me, as I watch you from the distance  
Your eyes are the purest You are gold My feet just need some action, and I am out of patience  
May I ask you to fix it, I'll come a little closer  
Somehow you remind me, as I watch you from the distance  
Your eyes are the purest You are gold You are gold  
Somehow you remind me, as I watch you from the distance  
Your eyes are the purest  
You are gold
