

Leaves

The Gathering

I close your eyes with my mouth
Now you don't see anything
But you feel my breath all over
I can feel you tooAlthough I don't really know you
I don't really careCry with me make my day
Tomorrow all will be gone
All the sweetness and all the fun
No, I don't wanna know...Although I don't really know you
I don't really careNow that you're gone I don't know
How to really feel inside
Baring the hope to see you again
I guess I never willNow that I do really know you
Yes, I really care
