All Alone

Toro Y Moi

Wait. She can only be with me.
I know...that she's my true love.
I've got...to keep this straight...now.
Never seen myself this way:
the man that she needs in her life
I've got to keep this right.

Follow her tonight, to give
what she's looking for
'cause she's all alone
Follow her tonight, to give
what she's looking for
'cause she's all alone
