

Rising Up

Amanda Jenssen

We've had our share of joy and pain
But we both get up so high
Just to come down again
And now you're like a rocket disengaging Everything of yours I've gathered up
When you come 'round here
You won't be drinking from my cup
And I've been fast asleep
But now I'm waking
It had to happen sometime I'm rising up
I'm right over you
So fly away
Cause that's the best thing you can do
Don't keep telling me how I should feel about us
I don't feel anything, baby
There was love, I can't deny
But your arms can't hold on to me
So just keep them by your side
Your eyes won't always be spilling over
Yeah, it had to happen sometime I'm rising up
I'm right over you
So fly away
Cause that's the best thing you can do
Don't keep telling me how I should feel about us
I don't feel anything, baby Maybe we could have grown
But if I made a mistake
God knows, I found out without you
Don't fool yourself
All those things you thought we'd see
Well, you gonna have to save them for someone on me
One day you will move on and there you'll be forever
Forever, forever I'm rising up
I'm right over you
So fly away
Cause that's the best thing you can do
Don't keep telling me how I should feel about us
I don't feel anything, baby Oh, I'm rising up
I'm right over you
So fly away
Cause that's the best thing you can do

Don't keep telling me how I should feel about us
I don't feel anything, baby
