

You Must Be Blind (feat. Zakk Wylde)

Black Label Society

Take a look for you'll never see
Inside my realm of mass insanity
I feed off fear inside a world that's wrong
Take my hand now won't you come along? Pure psychosis in this madhouse
Which I call my home
Degradation in it's purist form
You're not alone You must be blind
You must be blind
You must be blind Another trip inside the acid bath
No salvation and the grave is coming fast
Synthetic dreams and my drug of choice
Embrace confusion all is gone and lost Pure psychosis in this madhouse
Which I call my home
Degradation in it's purist form
You're not alone You must be blind
You must be blind
You must be blind Pure psychosis in this madhouse
Which I call my home
Degradation in it's purist form
You're not alone You must be blind
You must be blind
You must be blind
