Disarming the Car Bomb

Islands

im not so sure about it
im not so sure i can surmount it
without losing my head
how about just losing my edge
it seems easy as shit
than go ahead but i think im done
uhuhuncross my arms
to disarm the car bomb
its taking too looooooongggggg
something must be wrongi had my doubts about it
when i heard your henchman shouting
hooooooooo
weve come looking for you
wish that head
under my bed
with my hands over my head
uhuhhhuncross my arms
to disarm the car bomb
its taking too looooonnng
something must be wrong
