

# Smother Me

## Modern Day Zero

I never really meant to be  
So cold  
When it came right down to being  
Alone  
I never thought that you would be  
So low  
You could scrape the dirt right from my feet  
I know  
That the situation can't go on too long  
And I can't hold on You smother me  
And I'm left crawling  
All defenses  
Seem to fail me  
You smother me  
To keep me crawling  
Away I never thought that you would be  
So cold  
When it came right down to being alone  
I know  
That the situation can't go on too long  
And I can't hold on [Chorus] What would you do what would you do if I smothered you [Chorus]
