

Desperate

Tank

I'll never let you go, I'm still here if you need me
It can't be over no, that's just what I'm believe
You, cause I gave you my heart
You, and I don't got nothing left
You, you should have known from the start
You, I fight to my last breath
Oh, If I'm seeming desperate
It's trying to get away, but I can't let it
It's now or never her and I can't help it
Gotta do what I gotta do, if I wanna keep you
I'm so desperate
Gotta do what I gotta do, if I wanna keep you
It happened way to fast, like it was never meant to be

I'll hurt to make it last, cause love like this doesn't come for free
You, cause I gave you my heart
You, and I don't got nothing left
You, you should have known from the start
You, I fight to my last breath
Oh, If I'm seeming desperate
It's trying to get away, but I can't let it
It's now or never her and I can't help it
Gotta do what I gotta do, if I wanna keep you
I'm so desperate
Gotta do what I gotta do, if I wanna keep you
Look at me trying, look at me dying
Give my breast screaming out to the heavens above
Longing for your touch
