# Always On the Outside

## Common Children

Come back
Come on tell me you'll be coming back
'Cause I know
Summer's got us dusty from the roadBut it's high time we sail around
To celebrate the breaking of the clouds
And it's a fine wine to pass around
Even so it sometimes gets you downI search for words to say
To keep your heart from breaking
But at the end of the day
I'm on the outside waitingFor you to come around
For you to come aroundSweetheart
Let's take a drive and ride beneath the stars
Drive slow
It's time to leave the past and let goNow it's high time we turn around
Soon the night will fall and bring us down
But this sad talk, I won't recall
'Cause underneath this sky we got it all
We got it allI search for words to say
To keep your heart from breaking
But at the end of the day
I'm on the outside waiting
For you to come aroundI search for words to say
To keep your heart from breaking
But at the end of day
I'm on the outside waiting(I hope you come around)
There's so much I could say
To keep your heart from breaking
(I hope you come around)But at the end of day
I'm on the outside waiting
For you to come around
