

Patriarchaeth

Gwenno

He loves you but does he mean it?
Does he know what love is? Has he ever seen it?
What if one more time is all we needed?
His love is precious but his love is fleeting I sing I don't believe in fairytales
But if this was a perfect world
I wouldn't been distracted by them other girls
It woulda been you and me incredibly Now you know I want you back
And if you're happy just know I ain't mad
I'm happy thinkin bout the time we had
But I knew you'd leave eventually
Well all your happiness feels so bad
Cause you're so mad
But I guess we always want what we can't have
And all your loneliness hurts so bad
But I want you back
But I guess we always want what we can't have If I still loved you would you still believe me
Or have you moved on? Better make it easy
Now you've got a real good thing or so it seems
And now I can't have you, I can always dream Well this ain't no fucking fairytale
But if this was a perfect world
I wouldn't been distracted by them other girls
It woulda been you and me incredibly You never know it till you know it's gone
I couldn't say it so I sing it in a song
I'm saying sorry that I did you wrong
But I knew you'd leave eventually
When all your happiness ends so bad
Cause you're so mad
But I guess we always want what we can't have
And all your loneliness hurts so bad
But I want you back
But I guess we always want what we can't have Can't have, Can't have
Can't have, You back
Can't have, But I guess we always want what we can't have Can't have, Can't have
Can't have, You back
Can't have, But I guess we always want what we can't have Can't have
You now that I want you baby
Can't have
Can't have Can't have
You know that I miss you babe

Can't have
Can't haveCan't have
Can't have
Can't haveCan't have
Can't have
Can't haveCan't have
