

# Nothing Left

**Elliott BROOD**

Well I've been drinking ever since you tore my heart in two  
Since I last stepped out, well sadness crept in  
I prayed to keep me in tune(?) Late at night, this loneliness won't leave me alone  
And these late night calls  
Don't do anybody good Well I hope you know that I can't come back  
to you this way  
You complain about the weather outside  
But inside you're the same Late at night, this loneliness won't leave me alone  
And these late night calls  
Don't do anybody good Holding out  
You know there's nothing more  
You're colder than I've ever felt before  
Still holding out  
You know there's something  
You know there's nothing  
You know you love me  
No there's nothing left There's nothing left  
Nothing left
