

# Come To California

# Ron Pope

Started with a rose, ended up the millionairess queen  
In your new electric chair, sweetly sitting there building up steam  
You watch your mind little bit, or you're gonna have to make believe Flew into L.A., caught a screening of your  
lifelong dream  
Blew it in L.A., now you're desperate to create your own scene  
But watch your mind little bit, 'cause you're headed into the machine Come to California  
Come to California  
Come to California  
Come to California Come to California, baby let it all hang out  
Come to California, tell us what it's all about  
But watch your mind little bit, 'cause the future is beginning now Come to California  
Come to California  
Come to California  
Come to California But watch your mind little bit, 'cause you're headed into the machine Come to California  
Come to California  
Come to California  
Come to California
