

# How Can I Not (feat. Young Scooter)

## Future

We on that drank we on that drank  
I got 20,000 on me by mistake  
How can I not ball until everything fade away  
How can I not, how can I not How can I not make a movie  
How can I not do this shit that these niggas don't love  
How can I not get the Xans and the mollies the  
Percs and the drank and the drank in the Syrup  
How can I not take my style back from niggas  
When niggas was taking my style way before  
How can I not, how can I not, how can I not  
How can I not, how can I not, how can I not  
How can I not, how can I not, how can I not  
How can I not get this gwala and flip all this gwala  
Because a young nigga was starving  
How can I not make this music for dealers and  
Killers and niggas who out there be robbing Run in your spot smashing your ho fuck on your couch  
Quit Running your mouth, flipping my pen beginning to end  
Telling the plot look at my watch fuck all your thoughts  
I appreciate you niggas I appreciate you bitches for  
Keeping me relevant talk all you want drank all I want  
How can I not make you niggas regret how can  
I not go and get me a check how can you not get hooked on percocet  
How can you not be the one who was star  
How can you not be the one who was king  
How can you not come around and I stare at these niggas be rocking this bling  
Cum bitch then cum again how can I not want to fuck her friend  
Proper game make em all wonder how it feel being with a pimp  
Everyday something different, money, cars, clothes different  
Me and money got a chemistry, me and you a big difference How can I not make a movie  
How can I not do this shit that these niggas don't love  
How can I not get the Xans and the mollies the  
Percs and the drank and the drank in the Syrup  
How can I not take my style back from niggas  
When niggas was taking my style way before  
How can I not, how can I not, how can I not  
How can I not, how can I not, how can I not  
How can I not, how can I not, how can I not  
How can I not get this gwala and flip all this gwala  
Because a young nigga was starving

How can I not make this music for dealers and

How can I not take my style back from niggas  
When niggas was taking my style way before  
How can I not, how can I not, how can I not  
How can I not, how can I not, how can I not  
How can I not, how can I not, how can I not  
How can I not get this gwala and flip all this gwala
