

Closer

Steve Anderson

(as I get closer
I hear you say...)

Never thought i would leave this
Everything is clear
Don't know anywhere else
And the ones i need are here
If i leave I'll be lost somehow
Trying to find a way
As i get closer
I hear you say

(as I get closer
I hear you say...)

Then you got up and left
Like I wasn't there
You took away part of me
Without a care
I stood by you all those times
But I was alone
All i would feel was empty
Until you came home

(you came home...)

(as I get closer
I hear you say...)
