

# Under My Skin

## Play

She's got the body that wakes up the town  
Cause she doesn't dress up, she only dresses way down  
She gets away with that  
She thinks she's at a parade, a parade, a parade How can she leave the house in her underwear?  
She says she's wearing jeans, all I see is a tear  
How can she do what she does?  
She thinks she's at a parade, a parade, a parade And there she goes, she's just too perfect now  
There she goes, her head's up in the clouds  
There she goes, to center of the crowd  
And she know, know, know, know, know, knows There she goes, she's got a perfect tan  
There she goes, her hands up on my man  
Then she'd watch and think I understand  
But no, no, no, no, no, no, no She can't, she can't get under my skin  
She can't, she can't get under my skin  
She can't, she can't get under my skin  
She can't, she can't get under my skin Why does she think she can get away with this?  
Next thing I know, she's blowing my man a kiss  
How can she do what she does?  
She thinks she's at a parade, a parade, a parade And there she goes, she's just too perfect now  
There she goes, her head's up in the clouds  
There she goes, to center of the crowd  
And she know, know, know, know, know, knows There she goes, she's got a perfect tan  
There she goes, her hands up on my man  
Then she'd watch and think I understand  
But no, no, no, no, no, no, no She can't, she can't get under my skin  
She can't, she can't get under my skin  
She can't, she can't get under my skin  
She can't, she can't get under my skin She can't, she can't get under my skin  
She can't, she can't get under my skin  
She can't, she can't get under my skin  
She can't, she can't get under my skin And there she goes, she's just too perfect now  
There she goes, her head's up in the clouds  
There she goes, to center of the crowd  
And she know, know, know, know, know, knows There she goes, she's got a perfect tan  
There she goes, her hands up on my man  
Then she'd watch and think I understand  
But no, no, no, no, no, no, no She can't, she can't get under my skin  
She can't, she can't get under my skin  
She can't, she can't get under my skin

She can't, she can't get under my skinShe can't, she can't get under my skin  
She can't, she can't get under my skin  
She can't, she can't get under my skin  
She can't, she can't get under my skin
