

# Summertime (w/ P. Diddy)

## Beyonce Knowles

Out of all the guys that approach me  
Walking up to me like they know me  
You were the one that stayed aside  
Waited awhile and took your time  
You don't know how impressing  
Your curiosity was to me  
It was the fourth day of July  
Looked in my eyes and saw that I  
I wanted more than just a man, I needed a friend  
Someone I can talk to, someone who really listens  
When you touched my hand, the sun got brighter then  
Trusting you, I closed my eyes and felt our love begin  
It was the summertime  
When we fell in love it was the summertime  
Heaven shined on us it was the summertime  
Baby, there is nothing like the summertime, summertime  
Now it's been a year and were closer  
Fall in love again when I hold ya  
I know that God set you aside for me  
And now you are my prize  
Wanna grow old witcha  
And fill our house with your pictures  
Have a son for you, a little girl for me  
Together we'll raise a family  
Baby, you're more than just a man, you are my best friend  
Someone I can talk to someone who really listens  
When you touched my hand the sun got brighter then  
Trusting you I closed my eyes and felt our love begin  
It was the summertime  
When we fell in love it was the summertime  
Heaven shined on us it was the summertime  
Baby, there is nothing like the summertime, summertime  
It was the summertime  
When we fell in love it was the summertime  
Heaven shined on us it was the summertime  
Baby, there is nothing like the summertime, summertime
