

Going Round Again

New Musik

A naughty girl has crossed a boundary
She steps too far across the line
She's had her way with every body
Because she needs it all the time
She's going round again
Going round again
Going round again
Going round again
She needs a sexual understanding
She gets to bed with me and you
She can't refuse a proposition
She knows exactly what to do
She's going round again
Going round again
Going round again
Going round again
