

# Bitter End

## Rag'n'Bone Man

You swear to God but I'm a non-believer  
You're losing faith while I've been holding on  
Trying to find the root of all this come between us  
Trying to save what's left before everything is gone Sweet love, my oldest friend  
Have we come to the bitter end?  
No made up, no pretend  
How we've come to the bitter end  
The bitter end  
The bitter end Too many years of battle scars and now  
We're broken  
And all the words you said  
Been hanging over my head for time  
And all of the lines we've crossed  
The finally bars that's open  
As a thousand tiny pain because the light Sweet love, my oldest friend  
Have we come to the bitter end  
No made up, no pretend  
How we've come to the bitter end  
The bitter end  
The bitter end  
How we've come to the bitter end  
Oh, the bitter end The higher we rise  
The further we fall  
When we crash down  
Through all of these years  
I can't accept it's over now  
I won't let go Sweet love, my oldest friend  
Have we come to the bitter end  
No made up, no pretend  
How we've come to the bitter end
