# Already Yours

## Bahamas Music

A gift from God a small creation
A prized possession without limitations
Behind these eyes what can you see
That isn't already yours
Already yours
Already yoursIn fact, I've never wanted anything more
In fact, I've never wanted anything lessOh, you shouldn't treat me like a stranger
You say, I have the same effect only this time on you
Behind your eyes what can I see
That isn't already yours
Already yours
Already yoursThe voices of angels are in our blood
The voices of angels are in my blood
The voices of angels are in our blood
The voices of angels are in my bloodBehind your eyes what can I see
That isn't already there
Already yours
Already there
Already, already yours
