

No Comprende

Low

You know you didn't understand me
I didn't say it was a problem
Before you start to make assumptions
Let's try to cut to the solution
You know we should have seen it coming
You couldn't wait till it crossed that line
Your hands were tied
I know I do not know the language
(our house is on fire)
You keep me talking in a circle
(house with desire)
You can't just throw it in the trailer
You've got to stack it so it's stable
(our house is on fire)
Got to wind up all the cables
Couldn't wait to cross that line
Your hands were tied
To the last that you could find
It breaks you everytime
On fire
(aoooooooo)
House is on fire
(aoooooooo)
