

Bug

Feeder

Mother Earth, can you feed us now?
Feed me now, feed me now
Mother Earth, can you see us now?
Hold me down, hold me down Revolution, revolution
Revolution, revolution Mother Earth, can you feed us now?
Burst the bug, be forever loved
Hold me down, you can't hold me down
Break the bones, throw your stones Revolution, revolution
Revolution, revolution
Revolution, revolution You gotta fight it, you can fight it, no one else will
You gotta fight it, you can fight it, no one else will
You gotta fight it, you can fight it, no one else will
You gotta fight it, you can fight it, no one else will Feed me now, see me now
Mother Earth, can you see us now?
Throw the stones, throw the stones Revolution, revolution
Revolution, revolution
Revolution, revolution, revolution
