

# Cast the First Stone

## Elephant Stone

Why do I hate you  
What did you do that made this so  
I'll try to kill you  
Break your heart and your home I caught you throwing stones  
You saw me shoot em down  
Who cast the first stone  
We all hit the ground You know I hate you  
You took my home and family  
I'll try to break you  
With my soul and sanity  
You caught me throwing stones  
I saw you shoot em down  
Who cast the first stone  
We all hit the ground (Solo) Why do you hate me  
What did I do that made this so  
You've tried to break me  
Took my life, not my soul I caught you throwing stones  
You saw me shoot em down  
Who cast the first stone  
We all hit the ground  
I'll make you black and blue  
So fucked you never knew  
Your wife and children too  
It all comes around
