

The Ravenous Beast

Destruction

The greedy gullet of the bigwig nations
Swallows all of our patience
In unity they fool the poor
Keen on cash like a cheap fucking whore
They're misplaying their winning game
Already forgot that we're all the same
Their acting under our flag
Awkward political gray lag
The ravenous beast the claws of evil
Ripping the credulous poor apart
The statement of claim ignored by those with a black heart
Wrapped up in lies the ravenous beast
Seems education didn't teach us well
This ego mania leads into a bombshell
Disgrace surrounds me on those lucky days
'Cause soon the world will be ablaze
