Don't Make Waves

Brand X

Don't you make any trouble
Don't you break any bubble
If you wanna be safe don't make waves
Hear what I say, don't make waves
Don't make wavesThese foreign armies march across your land
Witness the downfall of all your plans
Their lethal rays bring towers down to dust
Their life-detector pick up waves from usKeep your mind off the airways
Don't transmit any relays
If you wanna be safe don't make waves
What I say, don't make wavesDon't you make any trouble
You just wait in your bubble
If you wanna be safe don't make waves
Oh no no, don't make waves
Don't make wavesUsed to dream I was in Thailand
I found no comfort in a spoon
And the band was always high, man
Till we ran right out of tuneDon't you make any trouble
Don't you break any bubble
If you wanna be safe don't make waves
Oh no no, don't make wavesDon't you cause any hassle
Don't you play like an asshole
If you wanna get paid don't make waves
What I say, don't make waves
Don't make waves
